

TWO INDUSTRY LEADERS

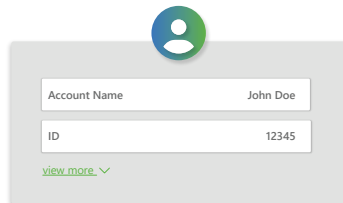

Zywave CPQ - Benefits with Employee Navigator

Streamline your quoting process by enabling plans from sold quotes* to automatically flow into Employee Navigator. This integration saves you valuable time through eliminating data-entry and simplifying benefits administration.

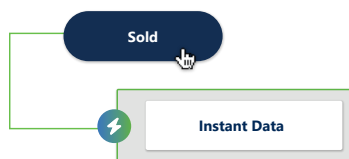

Zywave CPQ → Employee Navigator

This integration currently works as a one-way integration with data from Zywave CPQ - Benefits flowing into Employee Navigator. The integration streamlines your quoting process by enabling plans from sold quotes in Zywave CPQ - Benefits to automatically flow into Employee Navigator.

Account & Benefit Plan Data

Data specific from Zywave CPQ that syncs to Employer Navigator includes account name and ID's as well as medical plan information that ensures there is no need for data re-entry and potential errors within plan and enrollment information. Talk to your Account Executive for more information.

On-Demand

Plan data is pushed from the Zywave CPQ - Benefits platform to Employee Navigator when a quote is marked sold. Following the implementation of this integration, this data is instantly available within Employee Navigator.

Want to learn more about integrating?

Contact your Account Executive or connect with us marketing@zywave.com or 855-454-6100.

* Applicable for Zywave CPQ - Benefits (Premium), Sales Cloud Business and Sales Cloud Performance
