

ModMaster

Powerful mod analysis at your fingertips

Powerful mod analysis at your fingertips. Save time with quick import functionality and structured reporting that will help you pinpoint cost drivers and enable you to provide strategic guidance to help clients lower their mod and save money

“
**We use the basic
 ModMaster reports
 with virtually every
 project we come
 across.**
 ”

**Jeff Ascher, VP of Sales,
 Coverra Insurance Services**

Quick Mod Analysis for Prospecting

Discover a new prospecting hook by using Quick Mod Analysis to demonstrate a prospect's saving potential in minutes. Use this data to educate prospects about the importance of the minimum mod and showcase your value.

Full Mod Reporting

Enter itemized payroll and loss data to get detailed mod analysis, including multi-mod comparisons, frequency vs. severity reporting and more. Then, use the resources available in Broker Briefcase® to provide cost-saving solutions, such as return to work programs, safety articles and employee communications.

Fastest Import Feature on the Market

Upload NCCI experience rating worksheets and receive results in seconds. Eliminate manual data entry errors, and deliver instant analytics and reporting to your clients and prospects.
