Engage with Content

Finding relevant, accurate and engaging content to help educate your clients and prospects can be a drain on agencies. Stop wasting time searching for the resources you need in multiple places. Instead, integrate the industry-leading content library into Salesforce to create your single source of truth. Upload all the resources your team needs in one searchable, easy-to-organize system.

| ased on customer pre | sed on customer preference for Low Premium, we recommend the following plans | | | | | | |

| Aetna | \$7529.84 | 1000 | CA Gold PPO 80/50 1000 | | | | |

Automate Quoting & Proposals

Connecting into multiple carrier portals to create and submit information for accurate quotes is time consuming and is often plagued by data errors or data re-entry. By powering your quoting and proposal workflow with the Group Benefits Quoting API you can take advantage of the industry's largest carrier-direct network and growing library of medical ACA, medical level-funded, dental, and vision plans.

Manage the Policy Lifecycle

Using Salesforce with your organization is a powerful tool that enables you to connect many different departments, workflows and processes. With Zywave, you can add policy management and fully automate your policy workflows directly in Salesforce. Given immediate access to your data, you are able to become a more efficient and effective agency.
