LINE OF BUISNESS

Employee Benefits	Commercial Lines	Personal Lines

Zywave's API Offering

RATING, QUOTING & CONNECTIVITY

Personal Lines Quoting API

Embed personal lines quoting data from Zywave's industry-leading comparative rater, TurboRater. Instantly deliver home and personal auto quotes from hundreds of carriers nationwide directly into your existing systems.

Group Benefits Quoting API

Instantly quote over 100,000 plans from more than 1,000 medical and ancillary carriers nationwide, all within your existing tech stack. Direct data transfer allows for reduced data entry errors, decreased downtime for data validation and faster time to quote.

MGA Hub API

Provide comparative Excess & Surplus commercial general liability and property quote indications from dozens of carriers with seamless integration to the carrier portals.

Zywave's API Offering Continued

AGENCY & POLICY MANAGEMENT

Accounts & Contacts API

Integrate account and contact data within your Zywave solutions with other solutions in your tech stack to optimize your workflows

BrokerageBuilder API

Securely and efficiently bridge BrokerageBuilder data with other solutions in your tech stack. Eliminate extra data transfer steps, get access to deeper insights for better business intelligence, and get a more seamless view of your agency's data.

Policies API

Transfer policy information freely between critical technology platforms - including customer relationship management systems, agency management systems, benefit admin platforms, compliance systems or carrier portals.

DATA & INSIGHTS

Commercial Policy Benchmark API

Commercial insurers and brokers can access the data they need to enhance benchmarking and loss analysis capabilities. Powered by Zywave's Loss Insight dataset, the Benchmark Analysis API includes Cyber, D&O, EPLI, and Casualty loss data on over one million high-severity losses, valued at more than $10 trillion.

Lead Insights API

Go from intel to insight to action in no time with embedded commercial and employee benefit data. Get instant access to expensive, reliable and accurate insights on over four million employers nationwide.
